

PARKER LUMBER JOINS DUNN LUMBER FAMILY

Dear Dunn Lumber Customer,

I am happy to announce the addition of Parker Lumber in Bothell to the Dunn Lumber family of businesses. For years our customers have asked us to do a better job of supplying competitively priced lumber and truss packages and this new partnership answers that request.

For those who have not dealt with Parker, you will be pleased to find a similar value-minded, high-trust culture. The Parker team represents several hundred years of combined experience and their customers will tell you they fulfill all their commitments.

Your Dunn account is now valid at Parker Lumber. They're ready to provide an extensive list of materials and services which are outlined at right.

Dunn Lumber Co. remains committed to fulfilling your building material needs with a level of consistency and quality intended to delight. We appreciate your continued support and we look forward to serving you at this new location as well.

As always your comments and suggestions are appreciated and you can reach me by phone or email.

Warm Regards,

Michael E Dunn

Parker Lumber, a contractor lumber yard near Mill Creek in Bothell, Washington, opened in 1996 under the direction of General Manager Phil Gassman and has enjoyed great success. Primarily a contractor yard, they are known for their industry-leading delivery service and personal attention given to every customer.

Parker can provide many benefits for existing Dunn Lumber customers:

- Competitively priced lumber and truss packages
- Combined accounts with one monthly statement
- Plan drop off and transfer from all 11 Dunn Lumber locations
- Access to experienced employees specializing in new construction
- Large lumber packages put together by experienced load builders
- Company values and service attitude similar to Dunn Lumber
- Complete takeoff and estimating service
- Exterior cladding specialists
- Free local delivery
- Most deliveries of stock product scheduled within 24 hours
- Boom truck service available
- Convenient Bothell location

Parker Lumber is a proud supplier of James Hardie ColorPlus® siding. ColorPlus® is a proprietary process that involves applying consistent, multiple coats of paint that is created especially for the demands placed upon on a home's exterior by climate fluctuations. The end result is a beautiful consistent finish that lasts up to twice as long as field-applied paint. The baked-on coating offers maximum durability and resistance to prolonged exposure to freezing temperatures and moisture contact.
