

Bellevue Showroom Adds Canyon Creek Line

With the purchase of Olson Lumber in December 2004, Dunn Lumber found itself immediately selling some product categories that we had very little experience with. One of the most successful has turned out to be the product line from Canyon Creek Cabinet Company. The success demonstrated year after year by Cabinet Specialist Dennis Galbreth has shown us this is product that our customers frequently purchase. We have also found that our business model lends itself well to sourcing and supplying cabinets for our customers.

The success at Olson (now Dunn Lumber in Greenlake) sparked interest in adding a cabinet salesperson at some of our other existing stores. Cabinets have been available at Normandy Park for a number of years now, and the in-store remodel of Bellevue in 2008 allowed us

the opportunity to rework the millwork display area to include cabinets.

In November of 2008 Julie Johnson was hired to fill the position of Cabinet Specialist at Bellevue. Julie, a qualified interior designer, oversaw the construction and installation of the cabinet display. The cabinets were sourced through Canyon Creek Cabinet Company (www.canyoncreek.com), and the countertops and sinks were sourced through Venetian Stoneworks (www.venetianstoneworks.com).

Everything turned out beautifully and Julie is set up and ready to work with you on your next cabinet and/or countertop project. Stop in to meet her or feel free to contact her by phone at 425-373-5140, or by e-mail at juliej@dunnlumber.com ■ *(Related article on page 2)*

Choose Up to 65,000 Products. Plus Free Shipping.

We have added a lot more product at our stores in the last decade, but we know we can't possibly have everything you may need or want. That is why Dunn Lumber is pleased to offer access to 65,000 sku's at www.doitbest.com

Whether you are looking for automotive items, safety gear, power tools or work clothes, you are bound to find a solution at www.doitbest.com And if you choose the "Ship to Store" shipping option, your items can be shipped directly to one of our stores for no charge.

Shop Online. Ship-to-Store.

FREE SHIPPING!

It's easy. Just go to www.doitbest.com and search for the items you want. As you find each of the items, add them to your shopping cart. When you have found all your items, proceed to checkout where you will enter your billing information. Choose the shipping method of your choice where "Ship to Store" will be listed as one of the options. Enter your credit card information and you are done.

Your items will show up at the Dunn location you chose in 7-14 days at which time we will call you so you can schedule a time to pick them up. ■

Glenna at (425) 373-5151
or email: glenna@dunlum.com

Mike Sloggatt is a frequent contributor to the Journal of Light Construction magazine and writes for Fine Homebuilding and Tools of the Trade, in addition to moderating the JLC Rough Carpentry Forum. Mike teaches seminars and clinics in all aspects of carpentry and remodeling and is a regular presenter at JLC Live, The Remodeling Show, and the International Builder's Show. He takes education seriously, especially for the construction industry, and appears frequently at association meetings, including NARI and other regional builder and building material groups and lumber yards. Mike also produces Rough Carpentry Clinics with the Katz Roadshow. Mike has more than thirty years experience and specializes in high-end challenging remodels near his home on Long Island.

By Invitation Only: RSVP Required

DISCOUNTED TOOLS AT THE SHOW!

Wednesday, August 12th :: Dunn Lumber Co.
2350 140th Avenue NE
Bellevue, WA

7:30 – 8:30 HOT BREAKFAST sponsored by

SESSION

1

8:30 – 9:30 Waterproof Windows & Doors

Learn the latest techniques for correct flashing and housewrap coordination; ensure that your windows and doors NEVER leak with the proper use of sill pans, self-adhesive membranes and site-made metal flashings. Master the language and the joinery of radius architectural trim, from pre-assembled trim packages (miters vs. butt joints, sloped sills, pocket-screw joinery), to weatherproof caulking installation. Cut radius heads with a plunge router and trammel arm; heat-bend PVC head casings.

SESSION

2

10:00 – 11:00 Gable Ends: Frame-to-Finish

Smarter carpentry using a construction calculator for rafters and trim. Gable-end roof design and terminology with classical eave returns. Using templates and story poles to ensure proper proportion and efficient production. Trimming the gable end and eave return mixing Azek and WindsorONE: when to use wood and how to protect it; when to use PVC and how to join it with durable exterior trim details.

11:00 – 12:00 LUNCH sponsored by

SESSION

3

12:00 – 1:00 Building Better Decks

The connection to the house is one of the most critical aspects of deck building, and the one most prone to failure. Learn proper ledger placement & mounting techniques that ensure durability and strength. Working with high-end designs: radius decks and railings. Enhance your profits while protecting your client's investment by using the best products and designs in composite decking for beauty & sustainability

SESSION

4

1:30 – 2:30 Elliptical Porticos

Eliminate the segmented arch! High-end design with elliptical framing, finish and trim. Understand the ellipse then use the string method to plot an ellipse and for portico ceiling backing. Take home plans for making a simple jig that cuts a perfect ellipse using a trammel arm and router for finished materials. Use the same techniques for framing coved ceilings and curved hips.
